

WELCOME TO KIDTHINK Kidthink Children's Mental Health Centre Inc.

We're still open!

To practice social distancing, we have moved to providing remote therapy and assessment services.

This includes using telephone and video calls to meet with parents and their children. We are committed and available to support you and your family with their mental health needs.

If you or someone you know may need support, contact us to set up a consultation.

If you have not received services before:

- Feel free to contact us by phone or email to make a self-referral.
- Parents will then be asked to schedule a phone interview with our intake coordinator to gather more detailed information.
- You will then be contacted by one of our clinicians to discuss the options for providing you with services in a safe fashion that is suitable to your family's needs.

If you have any questions, please feel free to call our information line to learn more.
