

KIDTHINK.

healthy minds, thriving children

POSITION: Mental Health Clinician
JOB TYPE: Full-time, Part-Time, EFT Negotiable
LOCATION: Winnipeg, Manitoba
SALARY: Competitive salary and benefits package

KIDTHINK is a Manitoba-based children's mental health clinic in the heart of Winnipeg. KIDTHINK is committed to providing a timely, wholistic approach to care for the child and their family by providing direct clinical and outreach support services.

We provide evidence-based treatment and assessment services with a focus on children ages 12 years and under. The programs and services we offer are strength-based, culturally sensitive and trauma-informed. KIDTHINK also supports parents by providing parent coaching and their own mental health treatment. We understand the importance of the child's community and so provide outreach services to enhance these supports. In addition, we value and engage in regular outcome measurement, use state-of-the-art data collection software and are developing an active research program.

KIDTHINK is a creative, innovative and forward thinking mental health organization whose mission endeavours to *improve the lives of children and their families*. You will be joining a team that understands that we must share the responsibility to ensure that our children have easy and early access to the resources that promote health, wellbeing and optimal human development. You will work in a collaborative, supportive and dynamic team environment that fosters your growth as a professional.
